PETITION FOR ADDING MECHANICAL STREET SWEEPING TO OUR STREET

We, the undersigned, call on San Francisco Public Works to mechanically sweep on a routine schedule the following block(s):

NAME OF STREET TO BE SWEPT: _____

FROM (STREET): _____ **TO** (STREET): _____

We understand that "No Parking/Street Cleaning" signs would be installed stating a parking restriction to allow access for the sweeper truck. The San Francisco Municipal Transportation Agency's parking control officers would enforce the posted parking restriction by issuing citations. Public Works is looking for a strong two-thirds or greater majority of residents and businesses on the requested block(s) to sign the petition, providing their name, address and contact information. Public Works will make a decision on the request, taking into consideration several factors, including public support, route scheduling considerations and street grade and access. Please send the completed petition to Public Works BSES, 2323 Cesar Chavez St. San Francisco, CA 94124 or e-mail the petition to dpw@sfdpw.org and put Mechanical Sweeping Petition in the subject line.
